

# the Colissons

<u>32</u>	<u>34</u>	<u>36</u>	<u>38</u>
<u>40</u>	<u>42</u>	<u>44</u>	<u>46</u>
<u>48</u>	<u>50</u>	<u>52</u>	<u>54</u>
<u>56</u>	<u>58</u>	<u>60</u>	

The size of a collar is the internal vertical dimension measured in cm.

## Instructions

- *Print the PDF document. It will use several sheets of paper, depending on the format of the printer*
- *Glue these sheets of paper to a cardboard box and put the jigsaw together.*
- *Once the sheets have been glued together, check that the first size (red) is 32 cm*
- *Cut out the first size (32) with scissors and try the pattern on the donkey. If it's too small, cut out the next size (34) and try again.*

If the size is right, the rounding at the bottom of the cardboard will rest well on the shoulders and the donkey will not be strangled.

If you have any doubts, take a photo and send it to [info@randoline.com](mailto:info@randoline.com).
